To Whom It May Concern:

I am writing you this letter on behalf of Donald Arthur who has come to my classes here at Roosevelt High School and Fordham H.S. for the Arts. He has come to speak to my class on the importance of donating your organs after death. Donald has touched the hearts of many of my colleagues and students. His life experience that he shares has been an inspiration to me as well as my students. It makes one stop to realize the blessings of life!

Donald has won my respect and admiration. I commend Donald for his loving kindness and may God continue to bless him for many years to come.

Sincerely,

Ms. Fannie Davis
